## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 6, 2003 has been entered.

### ***Claim Objections***

Claims 16,19 and 20 are objected to because of the following informalities: these claims are not in proper independent format consistent with the practices of the Patent Office because the claims make reference and depend on limitations recited within independent claims 1,8 and 19, respectively. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: no structural

limitations have been recited within the claim language to obtain a laser oscillating apparatus but only recites exciting the laser gas within a chamber having slits on a plate member.

Regarding claims 1,16 and 17,

It is not clear within the claim language as to how the plasma is generated only within the slit-shaped gap of the laser system.
